3. About Tuggle: Unlike other market places Tuggle offers a selection of hand picked crafters. Each seller is carefully selected for what they bring to the site. Tuggle currently has 100 sellers and will only offer 250 spaces per year. Customers love supporting new businesses and appreciate the workmanship that has been put into making their order extra special. With more new sellers, affectionately known as 'Tugglers' signing up everyday its obvious that crafts are ploughing their way online!
4. Tuggle offers sellers the opportunity to sell commission free for an entire 12 months. For only £195 they can list up to 50 items at any point and receive 100% of the sale price. Or if they prefer they can choose the set commission route, pay £49 to sign up and only get a small 25% commission taken from each sale. No sale No fee. Simple.
5. Tuggle was born from a frustration of not being able to find a suitable online market place that charged reasonable rates or had simple listing fees. From an original team of 15 sellers ten months ago Tuggle now offers gifts for everyone who loves to find items that are not 'run of the mill'.
